

Integrative Aesthetics Summit

Program Overview

August 22-23, 2026

Grand Hyatt Indian Wells Resort & Villas

REDEFINING DERMATOLOGY:
Science, Skin & Whole -Person Health

DAY ONE

Saturday, August 22, 2026

All times are listed in PDT

Practice Management

6:30 AM - 7:00 AM

Registration /Welcome

7:00 AM - 7:45 AM

Breakfast Product Theatre

7:45 AM - 8:00 AM

Break

8:00 AM - 8:30AM

Keynote Presentation | Defining your practice in
Aesthetic Dermatology - Aesthetics Success

- **Renato Saltz, MD FACS**

8:30 AM - 9:00 AM

The Retention Revolution: Mastering the
12-Month Aesthetic Roadmap

- **Julie Acarrgui, APRN**

9:00 AM - 9:30 AM

The Retention Playbook: How Top Practices
Turn One-Time Patients Into Lifetime Revenue

- **Izhak Musli**

9:30 AM - 10:30 AM

Exhibit Hall break & Product Spotlight

10:30 AM - 11:30 AM

Industry Trends: Innovations in Integrative
Dermatology & Aesthetic Wellness Panel

- **Sheila Farhang, MD; Jason Derico, MD
Johnny Franco, MD**

11:30 AM - 12:00 PM

Retail Strategy & Revenue Optimization

12:00 PM - 12:30 PM

The Consult Is the Catalyst: How Optimizing the
Patient Journey Drives Outcomes, Retention,
and Revenue

- **Terri Ross**

12:30 PM - 1:00 PM

Lunch Product Theater

1:00 PM - 2:00 PM

Exhibit Break & Product Spotlights

2:00 PM - 2:30 PM

STOP Overpaying Your Taxes and PROTECT
Your Wealth!

- *Sponsored by*

2:30 PM - 3:00 PM

From Idea to Market: A Practical Playbook for
Launching a Product

- **Omer Ibrahim, MD**

DAY ONE

Saturday, August 22, 2026

All times are listed in PDT

Practice Management

3:00 PM - 3:30 PM

Building a Marketing Plan: How High Performing Clinics Track Their Performance

- **Jared Rohrer**

3:30 PM - 4:00 PM

Scaling Aesthetic Practices: Investment, Efficiency, and Long-Term Value Creation

4:00 PM - 4:30 PM

The Pretty Side of Medicine: Glowing up and integrating aesthetics (cash based practices)

- **Kara McClanahan**

4:30 PM - 5:00 PM

Break

5:00 PM - 5:30 PM

Energy-Based Devices and Aesthetic Technologies: How to Select, Combine, and Sequence Treatments

- **Johnny Franco, MD**

5:30 PM - 6:00 PM

Building a Legacy in Aesthetic Dermatology: Leadership, Presence, and Long-Term Impact

- **Yvonne Dellos, NP**

6:00 PM - 7:00 PM

Product Theater Dinner

Navigating the Legal Landscape of Aesthetic Dermatology: Compliance, Risk, and Best Practices

7:00 PM - 9:00 PM

Coachella Theme Party Reception

DAY TWO

Sunday, August 23, 2026

All times are listed in PDT

Practice Management

6:30 AM - 7:00 AM

Wellness Session

Morning Mindfulness and Energy Boost for Clinical Excellence

7:00 AM - 7:45 AM

Breakfast Product Theatre

7:45 AM - 8:00 AM

Break

8:00 AM - 8:30 AM

Regenerative Skin Balance: Biostimulatory Approaches with PRP, PRF, and Injectable Therapies
- **Valerie A Stern, DMSc MPAS PA-C**

8:30 AM - 9:00 AM

Advanced Skin and Body Rejuvenation: Energy-Based Devices, Biostimulatory Injectables, and Non-Surgical Contouring
- **Sheila Farhang, MD**

9:00 AM - 9:30 AM

Combination Therapy Protocols: Combining Toxins, Fillers, Biostimulators, Devices, and Skin Quality Treatments

9:30 AM - 10:30 AM

Exhibit Break & Product Spotlight

10:30 AM - 11:00 AM

Precision Pigment and Scar Correction: Skin Type–Specific Strategies and Melasma-Safe Approaches
- **Martha Viera, MD**

11:00 AM - 11:30 AM

The Skin Quality Era: Hydration, Barrier Repair, and Collagen Stimulation Beyond Fillers

11:30 AM - 12:00 PM

The Hair Revival Protocol: Integrating Medical, Nutritional, and Regenerative Therapies for Hair Loss
- **Fancesca Lewis, MD FAAD**

12:00 PM - 12:30 PM

Re-Writing Skin Aging, Rejuvenation and Longevity Aesthetics
- **Doris Day, MD**

DAY TWO

Sunday, August 23, 2026

All times are listed in PDT

Practice Management

12:30 PM - 1:00 PM

Lunch Product Theater

1:00 PM - 2:00 PM

Exhibit Hall Break

2:00 PM - 2:30 PM

Toxins and Fillers Decoded: Advanced Techniques, Rheology, and Product Selection by Treatment Area

- Julie Bass Kaplan, FNP-BC

2:30 PM - 3:00 PM

The Ozempic Patient: Facial Deflation, Body Contouring, Skin Laxity, and Regenerative Strategies

- Kalpna Kay Durairaj, MD FACS

3:00 PM - 3:30 PM

Peptides in Aesthetic Medicine: Topical, Injectable, and Systemic Approaches in Skin, Hair, and Longevity Care

- Melissa Grill-Petersen, DC MS BCHH

3:30 PM - 4:00 PM

Lip and Perioral Rejuvenation: Structure, Hydration, and Skin Quality

- Lindsay Bright, FNP-C

4:00 PM - 4:15 PM

Closing & Announcements

Hands On Workshop

Sunday, August 23, 2026

All times are listed in PDT

Separate Registration Required

Spots are Limited

Advanced Bio Stimulant Injection Techniques for Long-Term Skin & Structural Rejuvenation

This advanced hands-on workshop explores biostimulatory injectables, including hyperdilute Radiesse, Sculptra, and emerging collagen-stimulating agents. Participants will practice on live models to learn injection techniques for long-term rejuvenation of the face, neck, décolletage, and hands, with a focus on patient selection, dilution ratios, injection depth, vector planning, and natural-looking outcomes.

Format: 30-minute lecture with live model facial assessment, injection techniques, complication danger zones, and live injections, followed by guided hands-on practice on models in small groups of 2–3 students.

Time: 8:00 AM – 11:00 AM

Faculty: Wendy Pickett, RN

Advanced Injectables and Anatomy Cadaver Lab

Designed for experienced injectors, this advanced cadaver lab provides hands-on exploration of facial and neck anatomy, including vascular danger zones, nerve pathways, fascial planes, and tissue depth relationships. Through guided cadaveric dissection, participants will strengthen their understanding of high-risk injection areas, complication recognition, and safe treatment techniques in an intimate, small-group learning environment.

Format: 1-hour live dissection lecture followed by 2 hours of guided hands-on injection practice on cadavers in small groups of 2–3 students.

Time: 3:30 PM – 6:30 PM

Faculty: Julie Bass Kaplan, FNP-BC

Explore Advanced Dermal Filler Techniques To Contour, Lift, and Define Facial Features

This hands-on workshop covers filler selection, precise injection techniques, and complication management across high-demand treatment areas including the face, tear troughs, neck, décolletage, and hands.

Format: 30-minute lecture with live model facial assessment, injection techniques, complication danger zones, and live injections, followed by guided hands-on practice on models in small groups of 2–3 students.

Time: 8:00 AM – 11:00 AM

Faculty: Lindsay Bright, FNP-C

Advanced Neurotoxin Techniques for Precision and Natural Movement

This advanced hands-on workshop builds on foundational neurotoxin knowledge with a focus on precision technique, dosing strategies, and individualized facial movement analysis. Participants will work on live models to refine treatment of the upper, mid, and lower face, including brow architecture, periorbital areas, lips, chin, platysmal bands, and micro-tox applications, while exploring product differences, dilution protocols, and complication management.

Format: 30-minute lecture with live model facial assessment, injection techniques, complication danger zones, and live injections, followed by guided hands-on practice on models in small groups of 2–3 students.

Time: 3:30 PM – 6:30 PM

Faculty: Sheila Farhang, MD
